# SOUTHWEST VIRGINIA FARMERS' MARKET

## WELCOME TO THE SOUTHWEST VIRGINIA FARMERS' MARKET

The Southwest Virginia Farmers' Market opened for business in July of 1992. It is a State owned facility operated by the Carroll County Board of Supervisors.

The Southwest Market provides additional marketing alternatives for agricultural producers in Southwest Virginia.

The Southwest Market is a combination of *Wholesale* and *Direct Retail Sales* operations.

The *Wholesale* area of the Market is open year-round. The Market leases space to several wholesale tenants. Individual wholesale market tenants set their own hours of operation. Buyers can find basically a full line of produce and produce related items in this portion of the Market.

The *Direct Retail Sales* area is open in early spring until December of each year. This is the area of the market in which farmers/vendors can sell their produce directly to the public.
